

TECHNOCAMPUS

CENTER OF IBM SOFTWARE EXCELLENCE

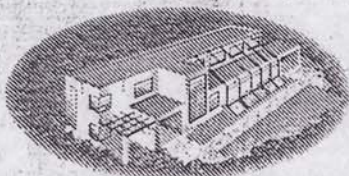

First ever 6-month full-time YSM course commencing on November 11, 1997.

- ▶ Only 'Center of IBM Software Excellence' in South Asia, a Rs. 12.6 crore investment in Calcutta. A 2-acre software campus.
- ▶ Strategic alliance between IBM and GlobSyn Technologies Limited.
- ▶ Curriculum consists of 60% advanced software education conforming to IBM norms, 40% critical management education conforming to MBA courseware from premium management institutes.

- ▶ Financial assistance available. 20 top entrants guaranteed full corporate sponsorships.
- ▶ S/390 Mainframe and AS/400 computer facility with 100 workstations.
- ▶ Multi-disciplinary faculty drawn from leading institutions of teaching and research in software engineering.
- ▶ Young Software Managers are guaranteed higher entry levels in global development facilities based on IBM technologies.

DIRECT ENTRY TO PROJECT MANAGEMENT. CAREER IN GLOBAL DEVELOPMENT CENTERS.

In the view of the software industry, TechnoCampus is an innovation. A "Finishing School" that takes high potential raw material and turns them into ready-made, but completely dependable, decision makers: the YSM. Each one at heart a technopreneur on the rise.

SLOG 6 MONTHS. JUMP 3 YEARS.

GlobSyn is the brainchild of Bikram Dasgupta, a prime technopreneur of India's IT industry. GlobSyn embodies a leavening concept of "Institutions & Infrastructure", three crucial linkages of forward integration: TECHNOCAMPUS, a high end Computer Education Institute and Lab; TECHNOWARE a powerful mainframe based Development Centre; and INFINITY a 40 acre, multi-tower "Intelligent City". All in communion in Calcutta. A far-reaching act of faith in the mission of infotech.
